WARM-UP

Materials Needed for Warm Up:

- [Google Slideshow](#)

1. Open the Google Slideshow and go over the Can-Do statements.
Hola, ¿cómo están? Estoy _____. Vamos a empezar el lab de hoy con los Can-do statements.
2. First, talk about how the activity for today is a game. Explain that a game is like heads up or taboo.
Hoy vamos a jugar un juego. Un juego puede ser Bingo, Taboo, Heads up, Billiards (pool), etc.
3. Then proceed to ask students if they have ever played bingo. For a follow-up question, ask if they have ever

heard of a Spanish version similar to bingo, called “Lotería” It is a board game of chance:

¿Conocen el juego “bingo?” Han escuchado de un juego que se llama “lotería?” Es muy similar a bingo y ¡Hoy vamos a jugar lotería!

4. Compare and contrast Bingo with lotería.
Lotería originalmente es de Italia y llegó a México en 1769. Hoy en día es muy común y popular en México. Lotería es similar al bingo clásico pero no es lo mismo.
5. Point out that lotería uses images along with a caption while bingo does not always use images or captions.
Una diferencia entre lotería y el bingo clásico es que la lotería tiene fotos y palabras. El bingo clásico no usa fotos ni palabras, solo números.
6. Point out that both lotería and Bingo require filling out a certain number of spaces, whether it be four across/ diagonal or blackout.
Una similitud es que se debe poner “fichas” (markers) en las casillas y para ganar se tiene que llenar la tabla completa o sacar una línea de cuatro casillas verticalmente, horizontalmente o diagonalmente.
7. Another similarity is that the person who puts the corresponding markers must yell “Bingo” or “Buenas” to officially win!
¡Otra similitud es que la persona que pone las fichas en el orden correcto debe gritar “Bingo” o “Buenas” para oficialmente ganar!

MAIN ACTIVITY

Materials Needed for Main Activity:

- Lotería Cards
- [Lotería Calling Cards](#)
- Markers for Lotería cards

1. The instructor will deal a **card**, read the word on it, and show the image to the students. Students will look for the same **card** on their **board** and will place a **marker** on the corresponding card until someone wins. The winning student should read back all the winning-filled squares (for example: in the first round all vertical, horizontal, or diagonal winning squares).

Voy a tomar una tarjeta, voy a leer la palabra y les voy a enseñar la foto. Ustedes deben buscar la misma tarjeta en sus tablas y poner una "ficha." La PRIMERA persona que llene las casillas en el orden correcto debe gritar "¡Buenas! o "¡Lotería!" para ganar.

2. Play several rounds with students. In the first round, the instructor will be "el gritón" or "la gritona." For all of the following rounds, the students will take turns each reading a card aloud.

The first round, students must get four in a row vertically, horizontally, or diagonally

Para la primera ronda, yo voy a ser el/la gritón/gritona. El/la gritón/gritona es la persona que dice las palabras y enseña las tarjetas. Para ganar en esta ronda deben tener cuatro fichas en las casillas de su tabla verticalmente, diagonalmente u horizontalmente, y una vez que las tengan, deben gritar "Buenas" ó "¡Lotería!"

The second round, students must get four corners

Para la segunda ronda, ustedes van a tomar turnos siendo él/la gritón/gritona. Cada estudiante va a tomar una tarjeta, la va a leer y enseñar. Para ganar en esta ronda, deben poner fichas en las cuatro esquinas de su tabla, y gritar "Buenas" ó "¡Lotería!"

The third round, students must “blackout” (fill every card) on their board

Para la tercera ronda, ustedes deben llenar todas las casillas de su tabla. Una vez más, ustedes van a ser él/la gritón/gritona y van a tomar turnos leyendo y mostrando las tarjetas que tomen. La persona que llene su tabla completa debe gritar “Buenas” ó “¡Lotería!”

3. If time permits a fourth round, students must create a picture frame.

WRAP-UP

1. For the wrap-up, the instructor will have each student choose 1 or 2 **cards** with new words they learned during the activity

Para terminar, cada uno de ustedes debe escoger una o dos palabras nuevas . Van a leer la palabra en voz alta y también van a enseñar a todos la foto.

2. Students will read the **cards** out loud, and the instructor will first ask the group what they think the word is. Then the instructor will say the English version of the word.

¿Conocen la palabra? ¿Cómo se dice en inglés? Bueno, se dice (english version of the word).

END OF ACTIVITY:

- Read Can-Do statements once more and have students evaluate their confidence.

(Use thumbs up/thumbs down or download our student cards.)

- Encourage students to be honest in their self-evaluation.
- Pay attention, and try to use feedback for future activities!

NCSSFL-ACTFL Can-Do Statements:

- I can understand similarities and differences in games between my culture and Spanish-speaking culture
- I can listen and read a word and interpret its meaning in English
- I can use simple phrases to ask for help or clarification in Spanish

WARM UP

Materials Needed For Warm Up:

- [Google Slideshow](#)

Optional physical materials:

- [Derecha/Izquierda Cards](#)

1. Begin by opening the **Google Slideshow** and introducing the activity and the **Can-Do's**.

Hola, ¿cómo están? Estoy _____. Vamos a empezar el lab de hoy con los can-do statements.

2. Ask students about their knowledge of cognates.

Hoy, vamos a charlar sobre los cognados. ¿En inglés, qué es un cognado? (Pregunta para el grupo)

3. A cognate is a word that sounds very similar in English and Spanish. For example, the word “moderno” in Spanish is “modern” in English. Also, the word “antiguo” in Spanish is “old” or “antique” in English. “Moderno” and “antiguo” are cognates or “real friends.”

*Un cognado es una palabra que es muy similar en inglés y español. Por ejemplo, la palabra moderno es modern en inglés. También, la palabra antiguo es old or antique en inglés. **Moderno y Antiguo son cognados o amigos reales. Son “amigos reales.”*

4. Also, there are “false friends” in Spanish. For example, “embarazada” does not mean “embarrassed”. It means “pregnant”! It is a false friend or false cognate.

También, hay amigos falsos en español. Por ejemplo, “embarazada” no significa embarrassed, significa “pregnant.” Entonces es un amigo falso. (Otros ejemplos: éxito, carpeta)

5. Students will then play a game to identify cognates. Explain the game to students.

Ahora, vamos a jugar un juego donde ustedes tienen que seleccionar el cognado, o el amigo real.

6. Have each student point in the direction of the true cognate or give each student **two arrows**, one saying left and the other saying right if using physical materials. Using the slideshow, have students identify the appropriate direction to describe which word is the cognate. The slide after will show the correct answer. Continue the activity until students have finished all warm up slides.

Voy a darles dos flechas a cada uno (izquierda y derecha). En el Google slideshow (presentación) van a ver dos palabras. Una de estas palabras es un cognado (amigo real) y la otra es un amigo falso. Ustedes necesitan usar las flechas para indicar hacia qué lado está el cognado.

7. Reveal the correct answer by going to the next slide.

*La próxima diapositiva va a enseñarnos la respuesta correcta.
¡Las palabras son (cognados/amigos falsos)!*

MAIN ACTIVITY

Materials Needed For Main Activity:

- Find a Selection of Ads from Spanish Newspapers or Magazines (If you don't have access to these resources, try searching Google Images for "Anuncios de Revistas")
- Whiteboard Markers & Erasers

1. Students will be provided with a set of **magazine ads**. In partners

or groups, students will have one minute to underline the words they believe are cognates.

Ahora, vamos a buscar (use gesture for looking around) cognados diferentes en anuncios de revistas que son escritos en español. Unos ejemplos de revistas son People, Sports Illustrated, Newsweek, The Economist, etc.

2. In partners, the students will have about 1 minute to underline the words they think are cognates. Students can write down the cognates they find on a **whiteboard**.

En parejas, van a tener un minuto para identificar todos los cognados en el anuncio. Después, van a compartir sus respuestas. Pueden escribir los cognados que encuentran en una pizarra.

3. After everyone is done, the pairs will ask the rest of the group to vote on whether they think words from their magazine article are cognates or not. Each pair will choose 3-5 cognates they found and read them out loud to everyone.

Como grupo vamos a determinar si los cognados que escribieron son "amigos reales" o "amigos falsos." Cada pareja debe escoger 3-5 cognados de su revista y compartirlos con el resto del grupo.

4. When everyone is done, students will vote on whether they believe the words are cognates or not. Ask the group whether they think what the word is in English. The instructor will let students know if they are correct and provide the correct meaning of the word.

El grupo va a decir : "Sí, es un amigo real" o "No, es un amigo falso." El grupo también va a determinar qué significa el cognado en inglés y el instructor les va a decir si es correcto o no.

5. You may play Cognate Bingo as time permits. Students will receive bingo cards and the instructor will read off words in Spanish from the Bingo Caller's Card. The students will mark their cards with the English cognate and when they have four markers in a row they win the round.

Van a jugar lotería de cognados y el instructor va leer las cartas. Los

estudiantes van a marcar sus cartas con el cognado en Ingles y se gana cuando tengan cuatro en fila

WRAP UP

Ask the students the following questions to finish the lab:

1. *¿Cuál es tu cognado favorito?* (Which is your favorite cognate?)
2. *En tu opinión, ¿hay muchos cognados en Español?* (In your opinion, are there many cognates in Spanish?)
3. *¿Puedes dar otros ejemplos de cognados?* (Can you give other examples of cognates?)

END OF ACTIVITY:

• Read **Can-Do statements** once more and have students evaluate their confidence.

(Use thumbs up/thumbs down or download our student cards.)

- Encourage students to be honest in their self-evaluation.
- Pay attention, and try to use feedback for future activities!

NCSSFL-ACTFL Can-Do Statements:

- I can recognize cognates in English and Spanish
- I can answer a simple yes or no question

- I can use cognates to guess the meaning of a word when similar to English or a language I know

 Spanish Level 1, Activity 04:
La Escuela / School
(Face-to-Face)

Photo by Sarah Pflug

Description: In this activity, students will practice vocabulary associated with school supplies. The activity facilitator will show a picture of an item and the first student that takes the item out of their backpack and says its name in the target language will receive a point. Students will also have the opportunity to show whether a statement applies to them, such as “having four roommates.” Students who have four roommates will be asked a follow-up question and if they can answer, they receive a point.

Semantic Topics: Deal, make a deal, school, school supplies, objects, backpack, escuela, objetos, mochila, materiales escolares

Grammatical Structures: Present tense verbs, irregular yo forms, verbos en el presente, verbos irregulares en la forma de yo

Products: Bargains, deals

Practices: Bargaining, making a deal

Perspectives: How is bargaining at the market viewed in Spanish-speaking countries?

NCSSFL-ACTFL Can-Do Statements:

- I can identify and present (when asked) items that are common in a classroom
- I can respond to who, what, where, and when questions

Materials Needed:

- Devices for each student

- [Kahoot Game](#)
- [Google Slideshow](#)

Optional physical materials:

- [Las Mochilas Tarjetas](#)
- Have students look for the physical items in their backpacks

Would you like to make changes to the materials? Access the template(s) below:

- [Las Mochilas Tarjetas](#) (Canva Template, free account required)

WARM UP

1. Begin by opening the **Google Slideshow** and then introduce the **Can-Do's**.
Hola, ¿cómo están? Estoy _____. Vamos a empezar el lab de hoy con los can-do statements.
2. Set up the **Kahoot game** on the projector. Students will be practicing vocabulary related to school, and the Kahoot game is an introductory review.
Hoy, vamos a practicar vocabulario sobre la escuela. Por ejemplo, lápiz y libro son útiles escolares. Vamos a jugar Kahoot para repasar un poco de este vocabulario.
3. Each student will take out a device (either their own device or a provided iPad) and open Safari, then go to "kahoot.it" Students enter the game pin that is displayed on the projector. Once all students are in the game, the instructor can start.

Todos van a necesitar un teléfono o una tableta. Van a ir a kahoot.it y necesitan poner el número que sale en la pantalla.

MAIN ACTIVITY

Part One

1. Explain the activity to the students using the Google Slideshow.
2. Students will scan the QR code in the presentation and make sure that each student has chosen a different card from their peers or *use physical materials*. Have students look for the objects that are on the slides on their cards or *in their backpacks*. When a student finds the item the student will run up to the instructor and hand them their card or *item* and yell "I have (whatever item is on the slide)". For example, if there is a slide with a pencil, students are going to look for a pencil on their card or *in their backpacks, purses, or pockets*. The first person to find the object brings the card or *the pencil* to the instructor and yells "I have a pencil!" to receive a point.

Yo tengo unas diapositivas de "Let's Make a Deal." (Write "tengo" up on the board and put "= I have") ustedes van a buscar ("look for" gesture) los objetos que tengo en las diapositivas. Por ejemplo, si tengo una diapositiva con un lápiz, ustedes van a buscar el lápiz en sus cartas (bolsas, mochilas o bolsillos if using physical materials). La primera (use one finger for 1st) persona con el lápiz necesita correr (run gesture), darme (give gesture) el lápiz y gritar (= yell) "¡Tengo un lápiz!" para recibir un punto.

Ejemplo:

1. **Instructor:** *Estudiantes, yo necesito una _____ .*
shows the slide with a calculator
2. **Estudiantes:** ***students look for a calculator in their bag***

*Instructor, you'll want to keep track of points on the whiteboard. Write student names on the board and keep track! *

Part Two

1. The next set of slides will have different questions. Students will practice talking about themselves. (Erase "tengo" from the previous part of the activity and write "yo"=me) For example: "Students, who studies at the library?" The first person to raise their hand and say "Me!" will have the chance to win a point.

Ahora tengo diapositivas con preguntas diferentes. (Erase the "tengo" from the previous part of the activity and write "yo" = me) Por ejemplo: "Estudiantes, ¿quién estudia en la biblioteca?" La primera persona que dice "¡Yo!" y levántese la mano (gesture to raise hand) tiene la oportunidad de ganar un punto.

2. The student who said "Me!" first will have to answer a follow-up question. For example, "How many hours do you study at the library?" After the student answers the second question, they receive a point.

El estudiante que dice "¡Yo!" primero debe responder a otra pregunta. Por ejemplo: "¿Cuántas horas estudias en la biblioteca?" Después de contestar la segunda pregunta, el estudiante gana un punto.

3. Once you go through all the slides, add up the points from all the rounds and see who won!

Ejemplo:

1. Instructor: *Estudiantes, ¿quién estudia en la biblioteca?* (Shows the slide with the library)
2. First student to raise hand: *Yo*
3. Instructor: (Ask a follow-up question, you can make up any question) *Bueno, ¿cuántas horas trabajas en la biblioteca cada día?*

4. OPTIONAL ACTIVITIES IF TIME PERMITS:

ACTIVITY 1) The instructor will lead a game of jeopardy, putting the students in teams.

Ahora vamos a jugar un juego de jeopardy. Necesitamos formar equipos.

Explain that they will review school supplies, and have the challenge to learn some new words if desired.

Las palabras de jeopardy van a repasar los útiles escolares y introducir unas nuevas palabras como prueba si quiere.

If there's more time, play the conversation jeopardy game. Students will answer questions about themselves for points.

Ahora, las preguntas están más libres. Hable de si mismo.

ACTIVITY 2) The instructor will show a video to students that has two Spanish-speaking students talking about school supplies.

Ahora vamos a mirar un video con dos estudiantes que van a charlar sobre los útiles escolares.

5. Students have to pay attention to the school supplies that are being mentioned throughout the video. Students can use a whiteboard to write some notes if they would like.

Ustedes deben prestar atención a los útiles que mencionan. Si quieren, pueden usar una pizarra para escribir unos apuntes.

6. Each student must say one school supply that they heard in the video. The instructor can write them on the whiteboard and do a comprehension check to make sure the whole group knows what each word means.

Ahora, cada uno de ustedes debe decir una cosa que dijeron los estudiantes en el video."

Ej: "¿Para estar segura/o que todos entienden, que es un __?"

WRAP UP

Ask the following questions of students to gauge their understanding of the activity:

1. *¿Cuál es el objeto más importante que tienen en sus*

mochilas? (What is the most important object in your backpack?)

2. *¿Les gusta escribir con una pluma/bolígrafo o un lápiz o solo usan una computadora? ¿Por qué?* (Do you like to write with a pen, a pencil, or do you only use a computer? Why?)
3. *¿Tienen un lugar favorito en campus?* (Do you have a favorite place on campus?)

END OF ACTIVITY:

- Read **Can-Do statements** once more and have students evaluate their confidence.
(Use thumbs up/thumbs down or download our student cards.)
- Encourage students to be honest in their self-evaluation.
- Pay attention, and try to use feedback for future activities!

WARM UP

Materials Needed For Warm Up:

- [Google Slideshow](#)
- Whiteboards & Markers

1. Begin by opening the **Google Slideshow** and introducing the **Can-Do's**.
Hola, ¿cómo están? Estoy _____. Vamos a empezar el lab de hoy con los can-do statements.
2. Each student will have a whiteboard. The PowerPoint has a slide with 1-7 and the days of the week listed in Spanish. Students will list the days of the week in order from 1 to 7 on their whiteboards according to the United States calendar. The lab instructor can choose a different student to tell them their answer for each number (do all 7 so that students can review the order of the week).
*Hoy vamos a practicar los días de la semana y también las materias de la universidad. Primero, en sus pizarras van a poner en orden del 1 al 7 los días de la **semana en los Estados Unidos...** ¿Me pueden decir qué día va en el número 1?*
3. On the next few slides, students will have to put the days

of the week in order once again, but this time according to a calendar from a Spanish-speaking country.

Ahora van a escribir en sus pizarras en orden del 1 al 7 los días de la semana para el calendario en un país hispanohablante.

4. Using the Google slideshow, the instructor will ask students what days they do certain actions. If necessary, the lab instructor can write the days of the week on the board for students to reference.

Ahora tengo diapositivas con diferentes acciones y actividades. Voy a preguntarles qué días hacen estas actividades. ¿Qué días vas a _ (clase) _? Por ejemplo, si tengo mi clase de español el lunes, el martes o el viernes, voy a decir "Lunes" o "Martes" o "Viernes". (Use yourself as an example before each slide if necessary) ¿Cuántas personas van a _ _ _ _ el lunes? ¿El martes? etc.

5. We will also review a few of the academic subjects. On each slide, there are going to be two images. The instructor will describe one subject, and the students have to determine what subject the instructor is describing.

Ahora vamos a repasar algunas materias. ¿Qué significa materias? (Ej: arte, matemáticas, etc). En cada página, hay dos materias. Yo voy a describir una materia y ustedes deben adivinar cuál estoy describiendo.

MAIN ACTIVITY

Materials Needed For Main Activity:

- [Question Cards](#)

Ahora vamos a practicar las materias (subjects) de la universidad. Una materia es un tipo de clase. Por ejemplo: el español, la historia, la literatura, etc. Vamos a tomar turnos y una persona va a tener una tarjeta con una materia. La persona va a sostener la tarjeta en su frente. (Gesture holding the card on your forehead).
2. The person who has the headband on their forehead will use the questions from the slideshow to figure out what subject they have. For example, if I have the “Spanish” card, I am going to ask other people questions to figure out what subject I have.
La persona que tiene la tarjeta en su frente va a usar las preguntas en la diapositiva para descubrir cuál materia tiene (use gestures to show). Ustedes van a tomar turnos respondiendo a las preguntas.
3. Students will keep asking questions to guess the subject/class. Answers can only be yes or no.
Solo pueden usar “sí” o “no” para responder.

WRAP UP

Ask students the following questions to finish the lab:

WARM UP

Materials Needed For Warm Up:

- [Famous Family Trees](#)
- [Google Slideshow](#)

1. Begin by opening the **Google Slideshow** and introducing the **Can-Do's**.
Hola, ¿cómo están? Estoy _____. Vamos a empezar el lab de hoy con los can-do statements.
2. Split your students into groups of 2-3 and give each group a famous family tree.
Vamos a dividirnos en grupos de 2-3. Cada grupo va a tener un árbol genealógico de una familia famosa.
3. Have the students in their groups/partners discuss the relationships of the family tree in Spanish.
En sus grupos, hablen sobre las relaciones de la familia en su

árbol genealógico. Por favor hablen en Español.

Ejemplo: _____ es la madre de _____.

4. Have each small group present the family tree to the entire group. When presenting to the entire group, have students choose three characters and describe them.

Por favor presenten las relaciones familiares de su árbol familiar. ¿Quién es la mamá de quién? ¿Quién es el hijo o hija de quién? También deben escoger tres personas y describirlas.

Ejemplo: "Marge es la mamá de Maggie, Bart y Lisa. Ella es inteligente." (La familia Simpson)

MAIN ACTIVITY

Materials Needed For Main Activity:

- Whiteboards & Markers

1. Give each student a whiteboard and a marker.
(Optional modification: [This website](#) has a user-friendly family tree generator that would be a great option for use with laptops and doesn't limit the space as a whiteboard would.)
2. Have the students work in partners. Make sure students interview each other and create a family tree for their partner.
Van a hacer una entrevista sobre sus familias. No van a llenar su propio árbol, sino el de su pareja. Necesitan hacer preguntas como: ¿Tienes un hermano? ¿Cómo se llama?
3. Take time to model what you want the students to do

with a student.

Por ejemplo, si yo estoy con esta persona (gesture to a student), yo puedo preguntarle “¿Cuántos hermanos o hermanas tienes?” “¿Tienes tíos?” Y yo voy a dibujar el árbol de mi pareja.

4. Students should be going back and forth asking questions to each other so that they are both drawing each other's trees at the same time.

Ustedes deben tomar turnos hablando y haciendo preguntas, para que cada persona esté dibujando el árbol genealógico al mismo tiempo.

5. After making the family tree of their partner, each person has to tell the group one thing about their partner's family.

Tienen que compartir algo de la familia de sus parejas. Por ejemplo, “Mi pareja tiene 10 hermanos y no tiene primos.

6. Now, the students will turn to their partners again and ask about the characteristics of their family members. For example, students can ask, “What is your mom like?”

Ahora, tienen que hablar sobre características de tu familia con tu pareja. Por ejemplo, pregunten: ‘¿Cómo es tu madre?’ Y la pareja puede responder: ‘Mi madre es muy alta y morena. También es muy simpática y le encanta correr.’

7. After taking turns describing different family members, the instructor can go around with each student and have them share one of the family members and their description.

Ahora voy a preguntarles a cada uno de ustedes sobre uno de sus miembros de familia y deben describirlo.

8. If time permits, the instructor can have the students ask them about their family and draw out their family tree as the students ask them questions. The instructor can also

have students ask them to describe a family member.
Ahora ustedes pueden preguntarme sobre mi familia y yo voy a dibujar mi árbol genealógico usando sus preguntas.
Después, ustedes pueden hacerme preguntas sobre mi familia y yo voy a describirla.

WRAP UP

Ask students the following discussion questions to talk about in their groups:

- *En tu cultura, ¿a quién consideras parte de tu familia?* (In your culture, who is considered as part of your family?)
- *En otras culturas, ¿a quienes se les considera parte de la familia?* (In other cultures, who is considered as part of a family?)

END OF ACTIVITY:

- Read Can-Do statements once more and have students evaluate their confidence.
(Use thumbs up/thumbs down or download our student cards.)

How to Revise or Remix a Pathways Project Activity

Feeling creative? The Pathways Project needs your help in revising and remixing activities for the K-16 language classroom.

Try taking an activity to the next level by:

- Add new content (something you've created or another OER source)

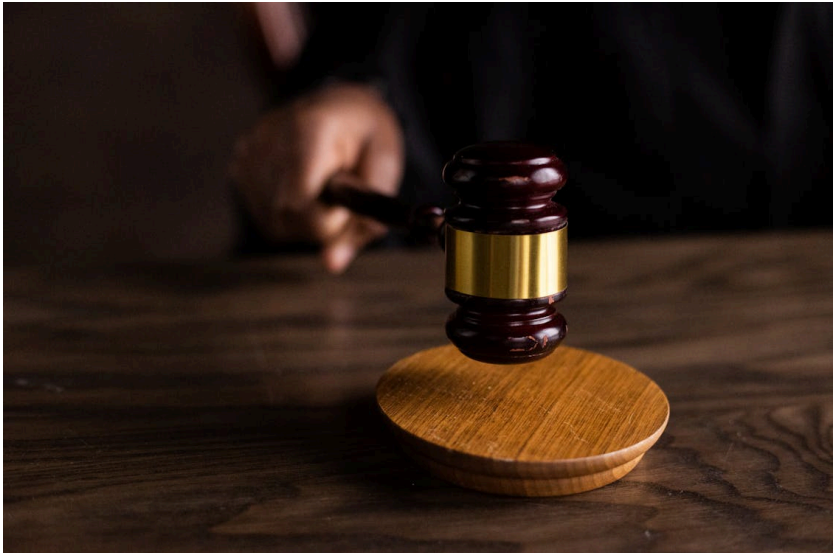

- Contribute additional activity suggestions
- Integrate authentic materials such as videos, infographics, photos, etc.
- Suggest how to implement the activity in the classroom
- Customize the content for a specific audience or group of learners (for example, K-5 learners or to differentiate for student's needs)

WARM UP

Materials Needed For Warm Up:

- [Google Slideshow](#)

Optional physical materials:

- [Instructions](#)

1. Begin by opening the **Google Slideshow** and introducing the **Can-Do's**.
Hola, ¿cómo están? Estoy _____. Vamos a empezar el lab de hoy con los can-do statements.
2. Explain to students what a “subasta” is in English. The

slide provides three clues. Go over these with students so that they can familiarize themselves with the descriptions and guess the meaning.

Nuestra actividad de hoy es una subasta. ¿Alguien sabe qué es una subasta? Voy a dar tres pistas. Las pistas ayudan a describir la “subasta,” ¿Qué es una pista en inglés? (“Pista” is clue”).

3. Tell the students: “We are going to have an auction! Every student is going to have money to buy and sell interesting things today.”

Hoy vamos a tener una subasta! (auction), cada estudiante va a tener dinero para comprar y vender (gesture giving and receiving money) cosas muy interesantes!

4. Have students read over the instructions on the Powerpoint slide or *hand out the instruction cards if using physical materials* and have them read over for two minutes.

Aquí están las instrucciones para la subasta. Tienen dos minutos para leerlas (gesture reading the card or the presentation) y después vamos a hacer la subasta.

5. Go over what “vender” is before telling them the meaning in English. Try to describe it as best you can so that they can guess it on their own. This is just helpful for knowing that “vender” means to sell in Spanish.

Antes de comenzar, vamos a repasar el verbo “vender.” ¿Qué significa “vender?” Vender es cuando recibes dinero por algún servicio o producto.

MAIN ACTIVITY

Materials Needed For Main Activity:

- [Funny Money](#)
- [Auction Paddles](#)

Optional physical materials:

- [Auction Cards](#)

1. Give each student the same amount of money (have them in plastic bags, counted out ahead of time). Tell them to count their money; everyone should have the same amount.

(Cada uno de ustedes va a tener dinero para la subasta. Necesitan tener (escribir \$1425 en la pizarra) \$1425 (Mil cuatrocientos y veinte cinco dólares))

2. Have students scan the QR code in the presentation or hand out the **auction cards** for students to have access to the items they are selling. Touch base with students and ask them once again what “to sell” is (in Spanish). Have one student be the “seller” and describe the item they are selling.

Ustedes van a tener unas cosas para vender. ¿Qué significa vender?

3. The other students will yell out prices and raise their **Auction Paddles** with the prices they are willing to pay for an item until the amount gets too high and there is only one person left willing to bid that high.

El resto de los estudiantes van a gritar el precio que quieren gastar en la cosa hasta que el precio sea demasiado alto y haya solamente una persona que quiera pagar el precio.

4. The person who wins the bid will hand their money to the person selling the item, and then the seller will give the

buy the item physically or metaphorically depending on if physical materials are used.

La persona que gana la oferta va a pagar el dinero al vendedor. El vendedor va a darle el objeto a la persona. (Model this “Soy el/la ganador(a) y voy a darle dinero a la persona que vende la cosa y él/ella va a recibir el dinero y me va a dar la tarjeta)

5. Then the next student will get the chance to sell an item. This will keep going until all items have been sold or time runs out.

Después, el próximo estudiante va a vender un objeto. Vamos a hacer esto hasta que todos vendan sus objetos.

6. Make sure you have enough time at the end to give the students a chance to put the things in the original bags with the same quantities.

Ahora, pongan el dinero en las bolsas con la misma cantidad, ¡por favor!

Give yourself a few extra minutes at the end to make sure all the money gets back in the bag. Don't try to do this yourself, ask the students to follow the key on the bag!

WRAP UP

Ask students the following questions to end the lab:

1. *¿Quieres comprar algunos de estos objetos en la vida real?* (Do you want to buy any of these objects in real life?)
2. *En tu opinión, ¿Cuál es el objeto más caro?* (In your opinion, which object is the most expensive?)
3. *¿Quieres ir a una subasta en la vida real?* (Do you want to go to an auction in real life?)

END OF ACTIVITY:

- Read Can-Do statements once more and have students evaluate their confidence.

(Use thumbs up/thumbs down or download our student cards)

- Encourage students to be honest in their self-evaluation.
- Pay attention, and try to use feedback for future activities!

WARM UP

1. Begin by opening the **Google Slideshow** and introducing the **Can-Do's**.
Hola, ¿cómo están? Estoy _____. Vamos a empezar el lab de hoy con los can-do statements.
2. This activity is similar to Mad-Libs! For the warm-up, students should be in pairs or divided into three groups, and each pair must have a whiteboard. Each group will be assigned a specific task. One group will write a subject (person). Another group will write a verb, and the last

group will write a place.

Para el calentamiento, deben estar en parejas o en tres grupos. Todas las parejas van a tener una pizarra. Una pareja necesita escribir un sujeto (persona), una va a escribir un verbo y la otra un lugar.

3. For example:

Panda Express, Bailar, Shakira. = Shakira baila en el restaurant de Panda Express.

4. Instruct the students to work together and form the sentence that conjugates the verb! (Do three to four of these, having them change the roles each time).

Vamos a trabajar juntos para formar una frase completa con un sujeto, verbo y lugar. Vamos a conjugar el verbo.

5. Make sure to switch around who chooses the verb, subject, and place.

Okay, ahora vamos a cambiar de papeles. Ustedes van a escribir el sujeto, ustedes el verbo y ustedes el lugar.

- [Google Slideshow](#) (Linked)

Optional Physical Materials instead of utilizing the QR code:

- [Location Cards](#)

- [Discussion Cards](#)

1. Put students into groups of 2 or 3. Each group will start at a different station. Groups will have approximately 3 minutes to respond to the questions at each station. There are verb suggestions on the wall, but the students can use others if they want. The objective is to practice responding to the questions in each station. There is no wrong or right answer! The only rule is that you must use Spanish.

Ahora vamos a trabajar en grupos de 3 o en parejas. Vamos a practicar respondiendo a las preguntas. Cada grupo va a empezar en un lugar diferente. Hay seis ubicaciones diferentes. Van a tener más o menos tres minutos para responder a las preguntas en los lugares. Hay verbos en la pared que pueden usar como ayuda (gesture to wall), pero pueden usar otros si quieren. ¡No hay respuesta correcta! ¡La única regla es que tienen que hablar en español!

2. Students will scan the QR code which will have questions for each station *or they will draw a discussion cards at the station if using printed materials*. They will read a question for their station aloud to their group, and each group member will respond in Spanish. Students will visit at least three of the six stations.

Cada persona en el grupo va a escoger una tarjeta con una pregunta y todos deben responder en español. Después de 3 minutos, cambien de lugar y hagan lo mismo.

3. Make sure each student has the chance to answer 2-3 questions about themselves, and then have them rotate groups.

Ejemplo: ¿Cuál es tu actividad favorita hacer durante el

invierno en Boise? Mi actividad favorita es caminar en el greenbelt.

WRAP UP

Ask students some of the following questions to finish the lab:

1. EN EL VERANO Preguntas: (IN THE SUMMER Questions)

- *¿Qué les gusta hacer en el verano?* (What do you like to do during the summer?)
- *¿Les gusta nadar?* Do you like swimming?)

2. EN EL INVIERNO Preguntas: (IN THE WINTER Questions)

- *¿Cuál es su actividad favorita para hacer en el invierno?* (What is your favorite activity during the winter?)
