2. Before beginning, introduce students to vocabulary using the Google Slideshow.
Antes de empezar vamos a repasar algunas palabras en Google Slideshow.
3. Students will scan the QR code with the **art cards** (they should keep these for the main activity as well). They will choose a painting that they think resembles them and have a simple explanation as to why they chose it (the more abstract the reasoning the better!).
Para nuestro calentamiento vamos a elegir obras de arte que parecen como nosotros. Cada uno de ustedes se va a elegir sus propias obras y decir porque eligieron.

¿Ves las noticias? o ¿Te gusta ver las noticias? ¿Piensas que es importante estar informado/a sobre lo que está pasando donde vives? ¿En el mundo o en general? ¿Crees que es importante que haya noticias positivas? ¿Qué pasaría si los medios de comunicación solo informaran sobre las malas noticias?
3. Now students will watch a few videos. The first one is about some school children in Colombia and what they would do if they were president. The second video is Enrique Peña Nieto, the president of México, talking about the importance of voting.

2. In their ad/announcement, students should include all of the elements listed on the slideshow.

Sus anuncios deben incluir un lema (slogan), a quien se dirige esta campaña, tres cosas que vas a mejorar y cómo, dos testigos que puedan compartir un testimonio sobre su campaña, y un mensaje de respaldo (endorsement) al final.

WARM-UP

1. Begin by introducing the **Can-Dos** for today's activity and opening the Google Slideshow.
Vamos a empezar con los Can-Do statements.
2. For the warm-up students will be playing a game of fishbowl in small groups. Have students open the linked taboo cards. Before starting the game, review the definitions of the words so that all of the students are on the same page.
Van a jugar un partido se llama "fishbowl." Voy a poner tarjetas con palabras en un plato. Primero, vamos a repasar las palabras de vocabulario.
3. To play Fishbowl, start by putting students in two teams. One person will choose a card from the bowl and describe it to their team, once their team guesses it correctly, they will choose a new card to describe and so forth. This continues until one minute has passed. Then, it is the other team's turn. A different student will describe each round. This will continue until there are no cards left. Whichever team has guessed the most total cards wins.
Vamos a dividinos en parejas. Van a describir las tarjetas por un minuto, y su equipo necesita adivinar tantas tarjetas como sea posible en un minuto. Después, el otro equipo va a tomar un minuto para adivinar las tarjetas. Continuan hasta que todas las tarjetas hayan sido adivinadas. El equipo con la mayor cantidad de tarjetas gana.

MAIN ACTIVITY

1. For the main activity, students will scan the QR code or open the link to receive a card with a situation (some kind of current event) on it, they will discuss the event with a partner in breakout rooms.

Para la actividad principal, los estudiantes van a recibir una carta con una situación real del mundo. Van a hablar sobre el evento con su pareja y presentarlo al grupo como si fueran reporteros. Recuerda a los estudiantes que la idea no es un informe perfecto, pero practicar y aprender nuevo vocabulario.

2. When the students return, Students will present the event to the rest of the group as if they are news reporters. Remind students the idea isn't to have a perfect report but to have fun practicing new vocabulary through real-life examples.

WRAP-UP

1. Have students share new words that they learned or looked up throughout the activity
 - *¿Qué nuevas palabras aprendieron?* (What new words did you learn?)
 - *¿Dónde te gusta leer o ver las noticias?* (Where do you like to read or watch the news?)
 - *¿Prefieres leer o ver las noticias? ¿Por qué?* (Do you prefer to read or watch the news? Why?)

WARM-UP

1. Introduce the Can-do's for today's activity and open up the Google Slideshow.

Vamos a empezar con los Can-Do Statements.

2. Students will play a guessing game where they try to guess each other's favorite animals. Ask students to describe their favorite animal using only adjectives.

Describe tu animal favorito usando adjetivos.

3. Students will then take turns guessing each other's favorite animals based on the descriptions they give to each other.

Ahora adivina los animales favoritos de cada uno.

MAIN ACTIVITY

1. Students will play a game called “colorful vocabulary”. The objective of the game is to broaden students' vocabulary and work on describing people, places, and things.

Hoy vamos a jugar al juego “vocabulario vibrante.” El objetivo del juego es mejorar tu propio vocabulario y describir

lugares, personas y cosas.

2. Each student will take out a sheet of paper so they can write and keep their score. Each person will get a card that says “erase the topic”. Students should mark an “X” every time they get a point.

Cada persona va a sacar una hoja de papel donde puedan escribir y anotar sus puntos. También, va a tener una tarjeta de “borrar el tema” para anotar puntos y escribir respuestas.

3. Students will take turns choosing a card that has a person, place, or thing. They will have 60 seconds to write down a few words that describe the topic. Students should use verbs, nouns, and adjectives. After 60 seconds, students will share what they have written. They receive a point for every word they write down, but if another person has a mutual word, neither student gets a point. The goal is to be creative!

Vamos a tomar turnos para escoger una tarjeta que tiene una persona, lugar o cosa. Van a tener 60 segundos para escribir tantas palabras como puedan pensar (como verbos, sustantivos o adjetivos). Después de 60 segundos van a compartir lo que escribieron. Reciben un punto para cada palabra, pero, si tienen palabras en común, ningún estudiante gana puntos. ¡La meta es ser creativo!

4. Use this model for an example: Justin and I both have “perro” as a descriptive word for the topic. Therefore, neither of us receives a point.

Si Justin y yo tenemos la misma palabra, por ejemplo “perro”, ninguno de nosotros ganamos el punto.

5. . If a student has a word that no one knows, doesn’t understand, or is just more out-of-the-box, ask them to explain it to the group. The person that has to describe their word cannot say it in English, they have to find creative ways to describe it.

Si tienen una palabra que no entendemos o una respuesta más creativa, pueden dar una explicación al grupo. No puedes dar la palabra en inglés, ¡tienes que describirla!

6. The person with the most points at the end of the game is the winner! Play as many rounds as is fitting for your class.

La persona que tiene más puntos es el/la ganador/a

WRAP-UP

1. Ask students the following questions to finish the lab:
 - *¿Hay adjetivos que usaste varias veces?* (Are there adjectives you used a few times?)
 - *¿Cuál fue el adjetivo más popular?* (Which was the most used adjective?)

END OF LAB

- Read Can-Do statements once more and have students evaluate their confidence.

WARM-UP

1. Today's lab will consist of asking and answering a variety of questions to get to know your fellow classmates.

"Para nuestro lab de hoy, vamos a responder a una variedad de preguntas. La meta de hoy es hablar con mucho detalle y conocer a tus compañeros un poco mejor."

2. The warm-up will consist of "this or that" questions. Each slide will have two options. Students should reply with their preference and a reason in one sentence in the chatbox.

"Para el calentamiento, vamos a ver varias diapositivas con dos

opciones en cada una. Ustedes deben escribir una oración que diga cuál de las dos opciones prefieren y por qué en el chatbox.

MAIN ACTIVITY

1. For the main activity, students should be split into pairs or groups of three in breakout rooms to ask each other a variety of questions. If the lab instructor is comfortable using Zoom features, they can periodically switch the breakout room configurations so students have the opportunity to work with a different partner or group.

“Para nuestro lab de hoy, van a trabajar con una pareja (o grupo de tres) contestando preguntas en un breakout room. Les voy a mandar en el chatbox un enlace para que puedan ver las preguntas que van a contestar en sus propias pantallas.”

2. Once students are in partners (or groups of 3, no more than this as it makes it difficult for everyone to talk and give a full answer), they should go through the slideshow they are given and discuss the questions together. The goal is for students to have as much of a conversation as they can. They should work to answer questions in detail, not just with a one-word answer.

“Con su pareja, van a charlar sobre las diferentes preguntas de las diapositivas. La meta de este lab es que hablen. Estamos por terminar el semestre, ¡entonces deben esforzarse para charlar los más que puedan! Todas estas preguntas deben responderse con detalle, NO solamente una palabra.”

- *Por ejemplo: “Mi animal favorito es un koala porque son pequeños y se ven muy esponjosos y bonitos.”*
- For example, My favorite animal is a koala because they are little, fluffy, and very pretty.

3. When there are around 5-7 minutes left of the lab, students should return to the main session to start wrapping up the lab. If students finish sooner, they should ask each other their own questions and continue to have a conversation in Spanish.

“Cuando falten 5-7 minutos para terminar el lab, por favor regresen al “main session”. Si terminan rápido con las preguntas, entonces hagan sus propias preguntas y continúen la conversación en ESPAÑOL hasta que falten 5-7 minutos.”

WRAP- UP

- Discuss with students how they will practice Spanish over the break to close

Antes de salir, todos van a compartir una manera que van a seguir practicando español durante el descanso.

END OF LAB

- Read Can-Do statements once more and have students evaluate their confidence.

Materials

[Google Slideshow](#)

WARM-UP

1. Begin by introducing the Can-Dos for today's activity and open the Google Slideshow.

Hoy vamos a compartir cosas sobre nuestra vida. También vamos a descubrir la mentira al compartir tres oraciones sobre nuestra vida.

Today we will share about ourselves. We will also discover the lie by sharing three phrases about our lives.

2. Ask the students, "What is a lie?" Ask them to put their reply on the chatbox in the Target Language.

"¿Qué es una mentira?" y pide que pongan una respuesta (en español) en la caja de chat.

What is a lie?, ask the students to write their answers in Spanish in the chat.

"Explica qué es una mentira en tus propias palabras. Por ejemplo: Una mentira es como cuando los padres le dicen a sus hijos que Santa Claus es real"

Explain what a lie is in your own words. For example, A lie is like when the parents tell their kids that Santa is real.

3. Review the rules of the game. "You will have one minute to read the three sentences. In the chat, you will type the sentence number that you think is a lie. It is necessary that you explain with a complete sentence explaining why you chose the number." Set a minute timer. If you haven't received any answers, you can increase the time. Review the answers with the students (it isn't necessary to read each sentence). Click for the next slide and reveal the two truths and a lie.

"Van a tener un minuto para leer las tres oraciones."

You will have a minute to read the three phrases.

"En la ventana del chat, vas a poner el número de la oración que piensas que es mentira."

In the chat write the number of the phrase that you think is a lie.

Es necesario que expliquen verbalmente con una oración completa por que piensan que es una mentira.

You have to explain why you think it's a lie using a complete phrase.

“¡No pueden buscar la respuesta por internet! 😊”

You cannot look for the answer on the internet.

MAIN ACTIVITY

1. Review the rules on the slide with the students. Place them in groups of two and ask them to do a round. If there's extra time, you can do more rounds or you can ask them to share the lies with the whole group.

Ahora, van a jugar el juego en parejas. Tomen turnos para compartir una mentira y dos verdades sobre tu vida. Tu pareja va a adivinar la mentira y después revela cuál era la mentira.

Now you will play the game in pairs. Take turns sharing a lie and two truths about your life. Your partner will guess the lie and after reveal which one is the lie.

WARM-UP

1. For the warm-up, students will work together in breakout rooms. There will be three slides that each have 15 vocabulary words. Students will use the vocabulary from these slides to create three different short stories. Each story should contain between 7 to 10 of the words listed.

Para el calentamiento, ustedes van a trabajar en grupos en "breakout rooms". Van a tener TRES diapositivas con 15 palabras de vocabulario. Van a trabajar juntos para crear tres cuentos diferentes que tengan sentido usando entre 7 a 10 de las palabras de vocabulario de cada diapositiva.

For the warm-up, you will work in groups in breakout rooms. You will have THREE slides with 15 vocabulary words. You will work together to create three different stories that make sense using at least 10 of the vocabulary words in each slide.

2. Students should take turns using different vocabulary words to continue the story. The goal of the warm-up is to create stories that make sense. Students should work together to make complete sentences and incorporate the vocabulary words in a way that makes sense.

Deben tomar turnos usando una palabra de vocabulario para continuar el cuento. La meta del calentamiento es trabajar juntos, crear oraciones completas y usar las palabras de la diapositiva para crear un cuento que tenga sentido.

You have to take turns using a vocabulary word to continue the story. The goal of the warm-up is to work together, create complete phrases, and use the words in the slides to create a story that makes sense.

MAIN ACTIVITY

1. Divide the students into groups and assign each group one of the slides. (There are three to choose from)

Los voy a poner en grupos en “breakout rooms” otra vez. A cada grupo voy a asignar una diapositiva.

1. Students will be asked to develop questions using the Can-Do statement on the slides. A sample question will be provided to help them get their wheels turning. These should be personal, interview-type questions, as the following week they will use these to participate in a speed-dating activity.

Uds. tienen que crear preguntas usando los can-dos en las diapositivas. Hay un ejemplo para ayudarles. Estas preguntas deben ser personales, como preguntas de una entrevista porque vamos a usar estas preguntas en la actividad de la semana que viene.

1. (Seven minutes) Put the students into groups of two and ask them to make a google doc per group and tell them to share it with the lab assistant. They are going to use this document to write down their answers. During this part of the activity, you should jump from one break out to room to ensure that the students are using Spanish and creating level-appropriate questions. (No yes/no questions; they should be creating open-ended questions that are challenging!)

Usando el Google Doc uds. deben escribir sus

preguntas. Tienen que trabajar juntos; no quiero ver trabajo individual. Las preguntas deben tener un final abierto. Por ejemplo: no preguntas de “sí o no”.

1. In the final three minutes, remind students to share their document with the lab assistant.

Recuerden que necesitan enviarme sus preguntas a mi correo electrónico ahora mismo.

WRAP-UP

1. Inform students that they will use the questions they created in the following lab!

La semana que viene/la proxima clase de conversación, vamos a hacer una actividad que incorpora las preguntas que han creado. ¡Nos vemos pronto!

Next week/next conversation lab, we will have an activity that incorporates the questions you have created. See you soon!

(This activity is two parts and will continue next week with the actual asking/answering of questions!)

END OF LAB

- Read Can-Do statements once more and have students evaluate their confidence.
(Use thumbs up/thumbs down or download our student cards.)
- Encourage students to be honest in their self-evaluation.
- Pay attention, and try to use feedback for future labs!

How to Revise or Remix a Pathways Project Activity

Feeling creative? The Pathways Project needs your help in revising and remixing activities for the K-16 language classroom.

Try taking an activity to the next level by:

- Add new content (something you've created or another OER source)
- Contribute additional activity suggestions
- Integrate authentic materials such as videos, infographics, photos, etc.
- Suggest how to implement the activity in the classroom
- Customize the content for a specific audience or group of learners (for example, K-5 learners or to differentiate for

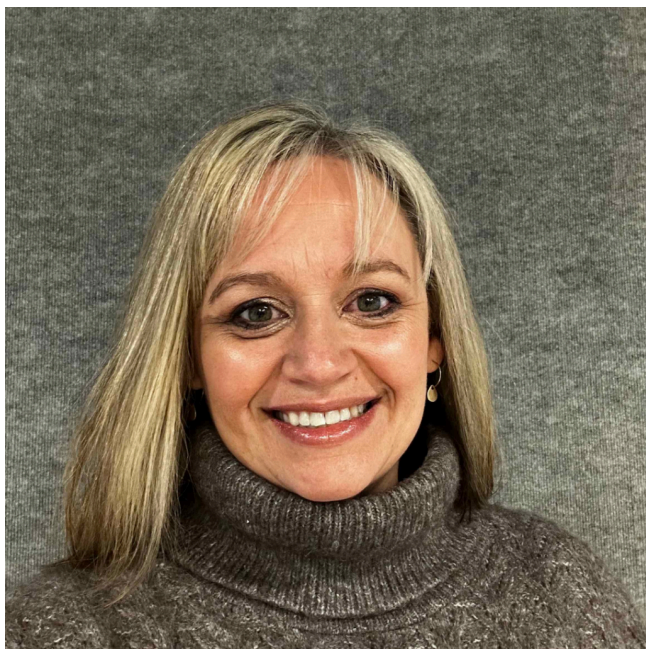

student's needs)

WARM-UP

Project the google presentation. Discuss the can-do statements for the activity.

Part 1:

- With a partner, you're going to talk about the 6 items in this infographic. To start, you'll make a preference list, put the most important item at the beginning of the list and the least important item at the end of the list, then, you will work together to select two things to eliminate from your lives forever.

Con una pareja, van a charlar sobre las 6 cosas de esta infografía. Para empezar, van a hacer una lista de preferencia. Pongan la cosa más importante al principio de la lista y la cosa menos importante al final. Después, tengan que elegir las dos cosas que van a eliminar de sus vidas juntos.

Part 2:

- Have students stand up. For each slide, ask the students which of the two items they prefer (*¿Prefieres __ o __? Cuál te gusta más, ¿__ o __?*). They should move to the side of the room that corresponds with their choice. Follow up with a few students by asking for an explanation: *¿Por qué elegirías __?* Use follow-up questions as appropriate to learn more about their perspectives.

MAIN ACTIVITY

For the main activity, students should be split into pairs or groups of three to ask each other a variety of questions.

“Para nuestro lab de hoy, van a trabajar con una pareja (o grupo de tres) contestando preguntas personales para que puedan conocerse mejor.”

2. Once students are in partners (or groups of 3, no more than this as it makes it difficult for everyone to talk and give a full answer), they should go through the slideshow and discuss the questions together. If you have one-to-one devices, students can move at their own pace, or you can project each question individually and give students time to discuss. The goal is for students to have as much of a conversation as they can, all of these questions must be answered in detail, not just a one-word answer. If moving through the questions as a class, encourage students to talk throughout all of the provided time.

“Con su pareja, van a charlar sobre las diferentes preguntas de las diapositivas. La meta es que hablen y que se conozcan mejor. ¡Deben esforzarse para charlar los más que puedan! Todas estas preguntas deben responderse con detalle, NO solamente una palabra. También, si quieres saber más sobre lo que tu pareja ha dicho, ¡pregúntale!”

With a partner, you will talk about different questions on the slides. The goal is that you talk and get to know one another better. You should try to talk as much as possible! All these questions have to be answered with detail, not just one-word answers.

- *Por ejemplo: “Mi animal favorito es un koala porque son pequeños y se ven muy esponjosos y bonitos.”*
- For example, My favorite animal is a koala because they are little, fluffy, and very pretty.

WRAP-UP

After the activity, ask students to respond to the following in writing.

Preguntas para terminar / Wrap-up questions:

- *Según su conversación, ¿qué tienen en común tu y tu compañero? ¿Cómo son diferentes? Explica.*

END OF ACTIVITY

- Read Can-Do statements once more and have students evaluate their confidence.
(Use thumbs up/thumbs down or download our student cards.)
- Encourage students to be honest in their self-evaluation.
- Pay attention, and try to use feedback for future activities!

a detailed response.
